

Dear customers,

Celkar has been successfully operating on the automotive parts market for over 20 years, specializing in the light commercial vehicles (LCV) segment. Thanks to our strategy, we can provide the best products at an attractive price. Rapid development and growing number of sales markets caused that the company's management decided to change the company's name.

I am pleased to inform you that from September 1, 2018, the full name of the company is VanKing Celkar Group Sp. z o.o. The commonly used name will be VanKing, while the full name of the company will function in all formal documents, i.e. contracts, invoices, offers, etc.

This step will allow us to develop freely and be able to more easily emerge on foreign markets as well as on the domestic market. Currently, our company sells its products on over 30 markets around the world and plans further expansion.

The change of the company's name is aimed at facilitating marketing communication of our company and does not entail any changes in ownership, company headquarters and assortment offer.

I hope that this change will not cause difficulties in communication and exchange of documents during the transition period, and our sales and accounting department will easily guide you through changes.

I also inform you that the change of the name does not affect other identification data of our company.

Yours faithfully,

Rafał Bieda

CEO
